

TECHNICAL & COMMERCIAL PROPOSAL

For Website Redesign Project

Submitted to: Samrat Tripathy (Strategic Alliance Manager)

Submitted by: Netsqure Technologies Pvt Ltd

Date: April 29, 2025

Proposal Reference: NS-TCP-0425

1. COMPANY OVERVIEW

Netsquire Technologies Pvt Ltd is a leading software development and digital transformation company delivering full-cycle web development, CMS customization, and design solutions to clients across various industries, including public sector and non-profit domains. We specialize in building accessible, secure, and modern web experiences tailored to the needs of diverse users.

With a talented team of designers, developers, QA analysts, and project managers, we bring a balanced mix of creativity, technical know-how, and reliability. Our approach is client-centric, agile, and quality-driven.

- **Headquarters:** Bangalore, India
- **Core Competencies:** WordPress Development, ADA/WCAG Compliance, CMS Design, UI/UX Design, SEO & Analytics,
- **Industry:** Healthcare, Events & Media, Insurance, Retail etc

2. RELEVANT PROJECT EXPERIENCE

Project	Client Location	Technology Stack	Industry
indosecsummit.com	Jakarta, Indonesia	Custom WordPress, PHP, HTML, CSS, JS	Media & Events
ashokafurniturehouse.com	Delhi, India	WordPress, WooCommerce, PHP, Payment Gateway	Retail (Furniture)
philsecsummit.com	Manila, Philippines	Custom WordPress, PHP, HTML, CSS, JS	Media & Events
fixmasterpos.com	New York, USA	Nuxt.js (Frontend), Custom WordPress (Backend)	Retail (POS Systems)

3. PROJECT UNDERSTANDING

We understand the objective of this project is to **redesign the current website of a public-sector housing agency** to better serve its primary users, including low-income families, landlords, and community partners. The new website must:

- Have a **fresh, modern look and feel**
- Be **mobile-responsive** and meet **ADA/WCAG 2.1 compliance standards**
- Be developed on a **non-proprietary CMS**, preferably **WordPress**
- Support **content migration and bilingual content** (English and Spanish)
- Be **SEO-friendly**, secure (with SSL), and include basic analytics and search functionality
- Allow **non-technical staff to manage content** effectively through a user-friendly admin interface
- Include **training for at least 2 staff members**
- Offer **12 months of technical support and maintenance**

4. DETAILED SCOPE OF WORK

A. Design & UX

- Create **three design concepts**: Homepage, Secondary Page, and Tertiary Page
- Ensure **modern, clean, and intuitive** visual design
- Responsive design optimized for **mobile, tablet, and desktop**
- Design aligned with **agency branding** and user journey considerations

B. Content Management System (CMS)

- Implementation of **WordPress**, a secure and flexible open-source CMS
- **Role-based access control** (Author, Editor, Admin)
- Easy-to-use interface with **visual editor**, page builder, and media management
- Custom fields and post types for different content sections

C. Content Migration & Bilingual Setup

- Migration of all **existing pages, forms, downloadable files, and PDFs**

- Conversion of **PDFs into fillable or printable online forms**
- Implementation of **bilingual support (English + Spanish)** using WPML or Polylang
- Content structure to allow seamless language switching and user experience

D. Accessibility & Compliance

- Full adherence to **ADA/WCAG 2.1 Level AA guidelines**
- Color contrast, keyboard navigation, ARIA attributes, and screen reader compatibility
- Google Analytics integration for traffic analysis
- SEO-friendly URLs, meta descriptions, alt text, schema markup
- Basic on-page SEO implementation across key templates

E. Functional Elements

- **Contact forms** (customizable and spam-protected)
- On-site **search functionality** (with real-time results)
- Structured **HTML sitemap** and footer sitemap
- SSL Certificate configuration (if not already in place)
- Basic performance optimization (lazy loading, compression)

F. Training & Documentation

- Training sessions for **minimum 2 staff members**
- 2-hour **live walkthrough** of the CMS interface and editing capabilities
- Delivery of a **user manual (PDF)** and/or short video tutorials for future reference

G. Support & Maintenance

- **12 months** of post-launch maintenance and technical support
- Covers bug fixes, plugin/CMS updates, minor design adjustments
- Out-of-scope tasks handled at a standard hourly rate
- Support response SLA: < 24 hours for critical issues

5. PROJECT TIMELINE

Phase	Duration
Project Kickoff	Within 1 week of contract execution
Discovery & Design	2–3 weeks
Development	3–4 weeks
Testing & QA	1 week
Content Migration	Parallel with development
UAT & Staff Training	1 week
Final Launch	Within 60–90 days

6. TECHNOLOGY STACK

Layer	Tools & Technologies
Frontend	HTML5, CSS3, JavaScript (Vanilla or jQuery), Bootstrap
Backend	PHP (Latest Version)
CMS	WordPress (Open Source)
Plugins	WPML / Polylang, Yoast SEO, Contact Form 7, WPForms, Elementor (if required)
Analytics	Google Analytics, Google Search Console
Security	SSL, CAPTCHA, Basic Firewall Plugins
Compliance	WCAG 2.1, ADA standards
Tools	Figma (for mockups), Git (for version control)

7. COMMERCIALS (USD)

Item	Cost (USD)
Design (2 layout concepts)	\$1,000
Development (CMS + bilingual setup)	\$2,000
Content migration + 5 online forms	\$1,000
ADA/WCAG compliance + SEO + Analytics	\$800
Training & Documentation (1 session)	\$0
6 Months Support & Maintenance	\$1,200
Total Project Cost	\$6,000

** Hourly rate for any additional out-of-scope requests: \$50/hr*

8. OUR COMMITMENT

- Transparent and collaborative communication
- Dedicated project manager and account manager
- Timely delivery with adherence to milestones
- Clean code, full documentation, and client handover
- Long-term support and future scalability

9. NEXT STEPS

We would be happy to initiate a call to discuss your expectations and walk you through our recent similar projects. Upon approval, we'll send a formal contract and project plan to kick off immediately.

Please let us know a convenient time for a discovery call or demo session.
